THE UNIVERSAL CAR

The Ford One Ton Truck is serving business just as faithfully and economically as does the Ford Touring Car serve all the people faithfully and economically. The Ford Truck is a necessity to the grocer both in delivering goods and in bringing goods from the stations, docks and from the country. It is an ideal motor car because there isn't a want of the farmer or business man that it doesn't supply in the way of quick transportation at a minimum expense. Come in, examine the Truck, and let us talk over the subject.

Mr. Bates spoke to the Seventh grade Monday morning. The subject of his talk was the Civil War.

One member of the Debating society to another member: "Would you be nervous in a debate or in giving a Declaration?"

Second member: "You should say more nervous. This is the second time today I have corrected you for saying that."

First member, discouraged: "This isn't the House of Correction." The High School got out on time.

The night of the general election morning. No student whose name is not on the list is allowed the privileges of the Reading table.

Watch for the basket ball schedule. It will be completed in a couple of weeks.

The Sophs gave a party last Friday evening in the Gym. The greater part of the evening was spent in dancing. About 9:30 o'clock a large American flag, which hung from the balcony to the floor, was raised, and one long table was seen. Above the table was hung a number of electric lights, each bulb being covered with blue and gold crepe paper ruffles. A large blue and gold French basket, filled with cedar, adorned the center of the table. The guests found their places by the aid of place cards. A dainty three course supper was served.

The line-up of the Boys' basket ball team is as follows:  
Eugene Karpus—Guard.  
Gordon Davidson—Guard.  
E. Smith—Center.  
Rueben Bebb—Forward.  
Edgar McPhee—Interchanging with Smith.

## NEW DOG LAW.

We are persistent in our calling attention to the new dog law; not for the purpose of notoriety but to get dog owners and township treasurers at the requirements of the law. The dog tax law compels a payment of \$1.00 from Dec. 1, 1919 to Jan. 10, 1920. A license MUST BE PAID.

Owners must return their dogs and tags back to the township treasurers, where they will be credited for the license fees and for return of the tags. The treasurers can issue licenses after Jan. 10th. At that time all dogs not licensed may be killed by anyone finding them. Do not get in wrong on this dog law; it is liable to kick back if you do.

Township treasurers should advertise when and where they will collect taxes and include the collection of dog tax at that time. This will make some more work on these days but it will be a convenience to dog owners who desire to retain their dogs. The law might be bettered, but at present it is in force and should be complied with.

## 135 INDICTED IN ELECTION PROBE

CHARGES INVOLVE SIX COUNTS OF ALLEGED VIOLATIONS OF FEDERAL LAWS.

## MERE POLITICS DECLARES KING

Unlawful Expenditures, Conspiracy, Fraudulent Reports Among 38 Specific "Overt Acts" Listed.

Grand Rapids.—The Federal Grand Jury has named 135 men in blanket indictment returned Saturday.

United States Senator Truman H. Newberry, his brother, John S. Newberry, both of Detroit, and 133 others were named.

Aside from the names of Senator Newberry and John S. Newberry, only 12 names have been announced, these being as follows: Allan A. Templeton, Paul H. King, Harry O. Turner, Maro T. McKee, Milton Oakman, Frederick P. Smith, Charles A. Floyd, all of Detroit; Frank McKay, Grand Rapids; Judd Yelland, Escanaba; Dr. James B. Bradley, Eaton Rapids; Gladstone Beattie, of Paw Paw; H. A. Hopkins, St. Clair.

The names of others are withheld pending serving of warrants.

In addressing the jury, District Judge Clarence W. Sessions, declared that the evidence indicated that from \$500,000 to \$1,000,000 had been expended in the Newberry campaign, when the commadore was returned a victor over Henry Ford.

Special Prosecutor Dalley, who has directed the investigation, said that all defendants would be permitted to post bonds wherever warrants are served. Date for arraignment in federal court here will be set later.

One of the indictments involves six counts, charging unlawful expenditures of money during the primary and election campaigns. The other has to do with alleged false reports made to the senate by the Newberry campaign committee.

The first indictment charged that both federal and state laws were violated in that sums far in excess of legitimate expenses were used in the campaign. The second indictment cited the affidavit which Senator Newberry made while serving at the Brooklyn navy yard in which he swore that no campaign money had been spent by him or with his knowledge.

There were six counts in the first indictment. The first four were devoted to charges of excess campaign expenditures. The fifth alleged conspiracy to violate the federal corrupt practices act of October, 1918, which penalizes payment of money to voters. The sixth count to which Frank C. Dalley, special assistant to the attorney general attached especial significance alleged that the mails were used "to defraud all the people of the state of Michigan."

This sixth count charged that not only were all voters of the state defrauded but that honest campaign contributors were also victims in that they were misled into believing that the legal limits of expenditures had not been exceeded.

## Politics Says King.

"Political in its inception, and designed for political effect in the coming campaign," is the characterization of the grand jury action given by Paul H. King, manager, of the Newberry campaign committee. Furthermore, Mr. King, who was among the first named in the indictments, declares he is proud of his achievement in aiding the senator to a seat and that he isn't a bit worried over the developments at Grand Rapids.

Senator Newberry will provide bonds and counsel for any or all of the 134 men who, with him, were indicted by the grand jury according to a statement issued by James O. Murfin, Senator Newberry's Detroit attorney.

"There is no law prohibiting a man from spending all the money he wishes to protect his friends," said Mr. Murfin. "And I am authorized to say that we—Senator Newberry's counsel—will defend as many of those, whose seal in the senator's behalf during the primary or election campaigns may have caused them to be indicted, as care to place their cases in our hands."

## Remembers Friends.

London.—Adelina Patti, famous prima donna, who died at her castle in Wales, left a fortune valued at 110,000 pounds (more than \$500,000). She bequeathed her property to Baron Rolf Cederstrom, her husband, with the exception of special bequests of jewelry to Alfred De Rothschild, Marianna Elisabeth, Clara Elisabeth and Melba Woodford, and a Pope Leo XIII stole to Herbert Vaughan, nephew of Father Bernard Vaughan.

## Says Home Site Bought.

Laurens.—The last deed was signed Saturday by which the state comes into possession of 918 acres of land, the nearest point but half a mile from the city limits, as the site for the new Industrial School for Boys. The price is \$147,850. The land stretches for a mile and a half paralleling the Pere Marquette and Grand River road and has an average depth in the main tract of one mile. An extension stretches half a mile to include Jones lake.

## NEW BOOKLET ON GRAZING IS PUBLISHED BY BUREAU.

The Northeastern Michigan Development Bureau has just published and is distributing a very handsome and carefully gotten up booklet on "Live Stock in Northeastern Michigan." It deals with the value of the grazing lands in the district territory, the transportation facilities, climate and the water supply, grass and forage crops and has several special articles on ranching and stock raising, by men who are actively engaged in the business, together with descriptive write-ups of several of the more prominent ranches in the district. There is also an article devoted to the dairying industry, which is becoming a big factor in the development of the northeastern part of Michigan.

The booklet is profusely illustrated with ranch and farm scenes. The last page is devoted to a resume of what the district offers to the "land hungry" man. It says:

"Don't think that too much is named for Northeastern Michigan. It is not all an Eldorado. It has its poor spots; it has its drawbacks; but the good is not overdrawn, and we have not told you all."

"This booklet is an invitation to the sheep man, the rancher and to the dairyman. To him who thinks the three do not get along together, we say there is room for all. Not in the ways of enormously large flocks and herds covering squares of miles, but for large and small, remembering that here an acre does more duty than perhaps those acres where the vast areas are used."

"Yet we offer still more:

"A summer playground for thousands of resorters.

"Fishing in our many streams, lakes and rivers.

"Shooting of game birds, duck and deer.

"We raise fruit, quality unsurpassed, and room for greater development.

"Four Sugar Beet Factories pay our farmers millions.

"Twelve, sixteen and eighteen tons of sugar beets per acre at \$10 or over per ton.

"Seven Chicory Factories, and much net profit per acre as in sugar beets.

"Canning Factories.

"Salting Stations for Pickles.

"Potatoes—Warehouses in our big potato districts to care for thousands upon thousands of bushels. 100 to 400 bushels per acre without fertilizer.

"Beans, peas, hay, diversified

farming and specialized farming; little farms and big.

"Clover seed of the highest grade, and yields—\$2,000 worth from 20 acres. Eight acres \$1,200, and sold the chaff for \$160 additional. Three to seven bushels of seed per acre. Alsike as high as 10 bushels per acre, and the chaff sells for enough to more than pay the labor.

"Wheat, corn, oats, barley, melons, vetch, peppermint, apples, butter, berries, 'milk and honey'—anything you please; and the joke of it all, often produced on land where the net profit per acre is greater than the cost of the land on which it grew. Perhaps here is the trouble—land is so low in price compared with other farming districts that outsiders are fearful that something must be wrong—BUT INVESTIGATE!"

## HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."

There are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Only one man, or even a boy, with the improved Ottawa Engine Log Saw can easily cut twenty-five to forty cords a day, and at a cost of less than 2c per cord. This machine, which cuts down all others, has a heavy, cross cut saw driven by a powerful, especially designed 4-cycle gasoline engine. An automatic friction clutch stops the saw in case of undue resistance. Two men can fall forty feet in a day in ordinary timber. It sells for a low price and is fully guaranteed for reliable operation in the hands of every one who has trees to cut down and logs to work up.

**Long Winter Ahead.**  
The Pas, Manitoba.—A long winter, as bitter as that of 1915, when the mercury fell to 54 degrees below zero, was predicted by trappers reaching here, who reported outlying settlements surrounded by great packs of wolves. This, they asserted, was a sure indication of cold weather. Although not yet ravaged, the wolves are following dog trails for long distances. Indians have killed 60 on the outskirts of The Pas and the surrounding territory.

## Back Lane and Achy?

Don't let that bad back make you miserable. Find out what is wrong. If you suffer with a constant backache, feel lame, weak and all-ayed-out; have dizzy nervous spells, you may well suspect your kidneys. If kidney irregularities distress you too, you have additional proof. Don't wait! Use Doan's Kidney Pills, the remedy people everywhere are recommending. Ask Your Neighbor!

**A Michigan Case**  
Mrs. P. Cornwell, 179 N. Front St., Mt. Clemens, Mich., says: "My back would feel as though it were going to break with a heavy ache. My ankles swelled also, and dizzy spells would come over me. Doan's Kidney Pills cured that ache in my back. The dizzy spells no longer annoyed me and the swelling left my ankles."

**EASY NOW TO SAW LOGS AND CUT DOWN TREES**  
Only one man, or even a boy, with the improved Ottawa Engine Log Saw can easily cut twenty-five to forty cords a day, and at a cost of less than 2c per cord. This machine, which cuts down all others, has a heavy, cross cut saw driven by a powerful, especially designed 4-cycle gasoline engine. It's a fast money-maker for those using it, and does more than ten men could do, either cutting down trees, sawing logs, or bucking branches while you rest. When not sawing, the engine can be used for other work requiring power.

The Ottawa can be fitted for sawing down trees. It cuts level with surface of ground, thereby getting all the timber and leaving no stumps sticking up. An automatic friction clutch stops the saw in case of undue resistance. Two men can fall forty feet in a day in ordinary timber. The whole outfit is compact, simple, durable against a lifetime of hard work. It sells for a low price and is fully guaranteed for reliable operation in the hands of every one who has trees to cut down and logs to work up.

Full information and low factory price to you can be had simply by addressing the Ottawa Mfg. Company, 2724 Wood St., Ottawa, Kansas.

## TORPEDOED!

Don't blast your Liver and Bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and bowels.

Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Calomel, Salts, Oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little too.—Adv.

Peterson. The next regular meeting will be held December 9 at the home of Mrs. E. J. Olson.

B. R. Preston figured in a painful accident Wednesday morning while working on a switch engine in the Michigan Central yards. It was necessary to place a stake on the engine to some cars on the next track so that these cars could be pushed without an extra switch. As the engine started, the stake broke striking Mr. Preston in the face lacerating it quite badly. He immediately was hurried to Mercy hospital where medical attention was given him.

Mrs. A. M. Lewis has been ill for the past two weeks and every day for the last week announcement of her death has been apprehended. She is suffering from pneumonia, both lungs being affected, had a high temperature and a pulse of 140. Almost everyone had given up hope that she would ever be any better and her physician said there was but one chance in a thousand for her to get well. Wednesday showed slight improvement and today her temperature and pulse are normal and there are bright prospects for her recovery. The patient has made a most wonderful fight which no doubt was a big assistance to the doctor and the nurses. Three of Mrs. Lewis' sisters were called here by her illness—Mrs. Sherman, Miss Dorothy Campbell, Mrs. and also Dr. Campbell, all of Newberry.

Francis C. Jennings passed away.

Had Been a Resident of Grayling for Past Twenty-five Years.

Francis C. Jennings, a resident of Grayling since September 1895, died at his home on the South side at nine o'clock Monday morning, December 1st, after an illness of a couple of months. On September 13th Mr. Jennings was stricken with paralysis and since that time has been confined to his home and most of the time to his bed.

The deceased was born in Southport, Shumong County, New York, September 28, 1867 and with his family came to Grayling twenty-two years ago and settled in Pere Chevey. A few years after they moved to Grayling and purchased the home on the South side, where they have resided since. Mr. Jennings was the father of nine children, eight of whom are left to mourn, besides his wife. The children are Mrs. Walter Shaw, Misses Ruby, Eva and Esther and Lloyd, Steven and Enos all of Grayling, and Mr. Robert Gokoy of Bay City. Most of the children have reached womanhood and manhood still there are some little ones who will miss the companionship of a kind father. Mr. Jennings had been employed in the mill of the Salling Hanson Co. where he was found to be an earnest worker and well liked by his fellow workers. It was necessary for him to leave his work on account of ill health. The family are well known in this community and have the sincere sympathy of many friends in their loss.

Funeral services were held at the home Wednesday forenoon, conducted by George Roszell, evangelist. Interment took place in Elmwood cemetery.

### K. OF C. BALL.

Wednesday evening of last week marked the opening of the annual ball, that are given each year by a number of the local organizations. The affair was also marked as being the first annual party to be given by Grayling Council, Knights of Columbus No. 1882, which was organized in Grayling during the past year.

The Eve of Thanksgiving was chosen for the time of the festive affair and invitations and announcements appeared for some time before the party and all were cordially invited to attend. The High School gymnasium was the scene of the gay affair, and was prettily decorated in a cozy and home-like manner for the occasion. A canopy fashioned of crepe paper ribbons of gold and blue hue covered the ball room, extending from the balcony to the center of the room. At the termination in the center of the room were pennants in the order's colors, gold and blue proclaiming the "K. of C." Also along the edge of the balcony, red, white and blue bunting was fastened and here and there pennants.

Clark's eight-piece orchestra that furnished the fine music for the evening, played from a platform, that was surrounded by small Jack pine trees, at one end of the ball room. Wicker settees, and easy chairs were placed here and there around the room, where the dancers rested between dances. Beautiful floor lamps lent a touch of brilliancy to the affair.

The serv-self luncheon that was enjoyed at midnight was splendid. It consisted of delicious sandwiches, assorted cakes, fried cakes, pickles, brick ice cream and coffee. It was two o'clock before the party broke up and then the lateness of the hour was hinted at when Clark's orchestra began playing "Home Sweet Home," finishing with "Good Night Ladies." Everyone seemed to be enjoying themselves and the party was a success just as the K. of C's had planned it to be.

Pleasure-seekers are looking forward to many such pleasant affairs during the winter, and the party Wednesday evening was only the beginning.

Among the out-of-town guests, who were in attendance at the affair were Mr. and Mrs. Benjamin Landberg, Stanley Insley, and Frank Telsa of Detroit; Misses Hoyt, Elmer and Gertrude McKee of Bay City; Miss

Lillian Wilson of Gaylord; Misses Lois Bourasso and Florence Smith and Vern Preston of West Branch; Miss Gibbons of Roscommon.

Only a Cold. Are you ill? Is often answered—"Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one cure for that disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Catarrh Medicine is taken internally and acts through the blood on the mucous surface of the throat, the bladder, the prostate, the rectum, the uterus, the ovaries, the foundation of the disease, giving the patient strength by building up the constitution. Catarrh Medicine is sold by all druggists. The proprietors have so much faith in the curative power of Catarrh Medicine that they offer \$100.00 for any case that it fails to cure. ### The high cost of deliveries is really a myth

Lots of people have been telling you that all grocery deliveries are expensive. That they greatly increase the cost of your food.

That you ought to save this cost by carrying your groceries home.

On the contrary our customers find our delivery system really economical.

It doesn't add to the cost of their groceries and provisions.

It saves their time and energy—which they can more profitably devote to their homes or to various outside interests.

We feel that it is part of a grocer's business to make deliveries. Our whole organization is built to serve you in this, and other ways.

For example, we maintain a telephone for your convenience. We extend credit. We carry the highest quality groceries we can buy. And we suggest to you various things we know to be especially good.

We take an interest in what you buy—when we sell you the ingredients for a cake, we like to know how it's going to turn out.

That's why we recommend to you RYZON, the Perfect Baking Powder. There's no uncertainty about RYZON—success is a foregone conclusion, for it is thoroughly dependable and at 40 cents per pound it is downright economy.

Ask us about the RYZON Baking Book if you haven't one already. You'll wonder how you ever got along without it.

A. Jorgenson of this city and B. D. Mitchell who recently moved here from West Branch, with his family, have formed a co-partnership and entered into the painting and house decorating business.

Mr. Jorgenson has been in the employ of Walderman Jensen, our well-known painter and decorator and is a skilled workman. Mr. Mitchell at one time lived in Grayling and is well known here. He also has been working for Mr. Jensen, assisting in decorating the home of the Kerrys in Saginaw. The latter has leased the New Russell hotel which will be run by his family.

Mr. and Mrs. William Mitchell, who have been residents of Grayling for the past five years left Tuesday on their journey to their native home in England, expecting never again to return to this country. All their children reside in different places in England, and three are due to cross the sea.

They will visit in Liverpool, London, Warwick and smaller places in England for several months before finding a location to spend the remainder of their lives. Mrs. Mitchell is a sister of Mrs. William Woodfield, and with her husband have made many friends and acquaintances in Grayling. Since coming to Grayling they purchased a home, which they sold to Albert Knibbs when they decided to discontinue their residence here.

The friends of Miss Ingrid C. Jorgenson at her home here were pleased to learn of her marriage on Saturday, November 29th to Mr. Ernest D. Duval of Monroe, Mich. The ceremony was performed in Detroit by Rev. Stephen Mogenson, well known in Grayling, and the happy young couple were attended by Miss Ingrid Jorgenson and Mr. Ralph Warner. The affair is the culmination of a romance that began during the summer of 1917, when the Michigan troops were stationed at Camp Ferris. Mr. Duval was a member of one of the Michigan regiments and served his country in France for about 20 months, during that time being wounded in battle. He returned from overseas and since that time has been employed in Detroit. The bride is the only daughter of Mr. and Mrs. Peter F. Jorgenson of this city. She was born in Grayling and has many friends who will extend best wishes and congratulations to the wedded pair. Since leaving Ferris Institute where she finished a course in stenography, she has been employed by the Wright Storage Battery Co. in Detroit. The young couple will make their home in that city.

Two Grayling young men, Isaac Hendon and William McDaniels, both about 25 years of age, were arrested last week for being intoxicated and each paid fines in Justice Freeland's court of \$20 and cost of prosecution amounting to about \$3.75 more. They refused to tell where they got their liquor. After getting a shine out, it is reported the boys went to the Burton hotel where they hid away in a room belonging to a young girl guest and when the latter entered the room she noticed the toe of one shoe sticking out from under the bed. She immediately reported the fact and the boys were soon apprehended. Just as they were being brot down the stairs Sheriff Richardson and Marshal Brenner appeared at the front door and took the lads into custody. One other lad was reported to have drank at about the same time but he seemed to escape the eyes of the officers and was not arrested. This item of news appears rather startling these days while a couple of years ago it was a common sight to see drunks about the streets and sometimes among the young boys. The officers believe that had the designs of the boys been carried out that there might have been a more serious charge made against them.

Nearly every merchant of Grayling have taken on The Merchants Mercantile Agency system of credit records and the system is now in steps of installation. Each merchant will have a book wherein there will be the names of every person in the community rated in accordance with the way they pay their bills, as follows: P—for prompt pay; F—for fair pay; S—for slow pay; C—for cash customer; U—for unfortunate circumstances preventing the creditor from paying; and X—for no good. Each merchant will send out statements to their customers that owe bills and as these bills are paid the merchant will determine the credit standing of the customer. It is estimated that 12 per cent. of the people getting trusted are not good pay and it is so that the local merchants may give to the other 88 per cent. better service that they have united under the Mercantile system to weed out the poor ones.

A sufficiency of good furniture wisely selected, casts an air of refinement over the home, proving an attraction to outsiders, second only to the main attraction, which our artist shows seated in the picture in the above sketch.

### COUNTY AGENT'S COLUMN.

The fact that the average potatoes raised per acre in Michigan this year was 15 bushels, gives rise to the suspicion that Michigan as a state raised potatoes at a loss. While there are many good potato growers in Michigan who raise yearly from 200 to 300 bushels and upward, there are so many 45 to 65 bushel fellows that it brings the average way down.

This state of affairs occasioned deep concern at the conference of County Agents of Northern Michigan held at Cadillac, November 17-21, and it was the consensus of opinion that poor seed was in a large measure to blame for the low yield among a certain class of potato growers. This class of growers will not apparently avail themselves of the knowledge and methods of growing good seed for themselves nor will they pay those who grow good seed enough for it to justify the extra time, care and expense of growing good seed potatoes. The question of how to get any considerable quantity of good seed into the hands of this class of growers therefore becomes an important one. In order to try and help solve this problem the following committee on Program for Potato Seed Improvement was appointed. Wm. F. Johnston, chairman; K. K. Vining, C. M. Kidman, H. L. Barnum, County Agents from Emmett, Presque Isle and Missaukee respectively, and W. C. Gibbs, field agent Michigan Potato Growers exchange, and C. W. Waid, extension specialist in potatoes. A conference was held with the directors of the Michigan Potato Growers exchange then in session, which body pledged its moral support to the plan of having each local potato growers association plant at least five acres of potatoes for seed purposes for the use of its members, this seed to be traded bushel for bushel for No. 1 table stock at the time members marketed their potatoes. It is estimated that next year about 60,000 bushels of good seed could be furnished in this way. There are now 93 locals in the state with a membership of about 16,000, whose annual needs for seed is estimated approaches 800,000 bushels. It is calculated that a project of this kind carried on from year to year with constantly improved methods and seed would in a very few years bring Michigan potato average up to where it really belongs, and result in both high quality and decreased cost of production.

The rapidity with which the farmers are waking up and taking charge of their own business will be a matter of amazement in a few years when we come to look back and realize the changed condition. Not only taking charge of their own business but financing their own business. In Illinois 95 per cent of the farmers in over twenty counties have signed up in their State Farm bureau for three years at ten dollars per year. Barry County Michigan the only county canvassed so far has signed up 85 per cent the first time over in a similar manner. In many of the other states the campaign is in full swing with similar results. In Ontario they have simply taken charge of the Government. When we consider that in United States the farmer owns 51 per cent of the property, has more employed than any other industry, buys more manufactured products than all the other classes combined, there is little reason or excuse that he should stand back always and let others dictate all the conditions under which he shall carry on his business. This campaign is spreading rapidly over Michigan and the farmers of Crawford and Rosecommon counties should be alert and wide awake and get into the game, and help pull their weight. County in the matter of its Farm bureau.

As in most other things Crawford

eau has the distinction of being in the forefront. There has been no county in the state according to its size and number of farmers whose Farm bureau has been more awake or effective in getting things done for the agricultural betterment of its county than this one in Crawford county. The records show this and the state leaders of extension work recognize it and deplore accordingly the fact that the Bureau is left with out a county agent. While even to the individual members of the executive committee and the Project committeemen throughout the county it might seem that there was not much doing yet when all the things are added together that are taking place throughout the county they make a big showing.

The Bureau was fortunate in the main in getting men on its Executive committee who had a vision of agricultural betterment and were willing to contribute some of their time toward bringing it about. While their efforts have met with discouragement yet they should persevere, remembering that most good things started with a small beginning and were born and reared amidst much travail and discouragements. This body of men should keep together, and meet as often as possible. Get in touch with the State Farm bureau and make up your minds to convince the farmers of Crawford county in general that they were big enough to take hold of their own business and finance it and run it. The educational campaign now started along the lines of limestone and legumes, potato standardization, grasshopper control, sunflower silage, silos, better sires, corn seed selection, hill selection of seed potatoes, cold pack canning and various minor matters are going to live in the practices of the best farmers and the effects of these practices will continue for years whether there is a county agent or not if the farmers will just keep getting together and counselling with each other for betterment along these lines. "Don't give up the ship."

### A Good Cough Medicine for Children.

Mrs. J. W. Phillips, Redon, Ga. phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. She would find nothing better for coughs and colds in children or for herself. It keeps the cough loose, expectoration easy and soon frees the system from the cold.
